

We got from Iraqi prisons

General strike throughout the custody of the Iraqi provinces of solidarity with the prisoners in the Fifth Division sentenced to death because of the feet of the Maliki government on the execution of a Saudi citizen in Iraq and 21 Iraqis and two women and the execution of hundreds in just one month

Iraqi authorities have executed against a Saudi citizen (Mazen Nashi) and dozens of Iraqis, including two women, all of them Sunnis, in .a frantic campaign to executions against Sunni prisoners in Iraqi prisons before the adoption of the amnesty law to be adopted

The sources said that the number of convicts who will execute the death sentence against them in the next few days the number of ap-.proximately 300 prisoners, including Saudis and Arab prisoners

It is worth mentioning that the Saudi citizen last threatened the execution right in the coming days (Abdullah Azzam Al Qahtani) after Disclaimer Iraqi authorities of the promises made to the Human Rights Commission in Saudi Arabia, which has intervened to improve the conditions of Saudi detainees (Abdullah Azzam and Muhammad Nashi Jazrawi) after entering in a hunger strike, then today hit au-.thorities all the promises the wall with their feet to the implementation of the death sentence by virtue of Saudi Mohammed Al-Nashi

We call on Iraqi human rights organizations, Arab and International and Human Rights Watch mediately intervene and pressure on the Iraqi authorities to stop the executions of racism

Observers warn the detainee affairs of the communal effects of the implementation of the campaign of executions of prisoners Sunnis in .light of sectarian escalation in the region
